

**GoDaddy
Trademark
Guidelines**

We created the GO to be a beacon of empowerment for entrepreneurs everywhere.

The GO means different things to different folks, because no two entrepreneurs are the same.

To some, it means
It's time to quit your day job.

And to others, it means
The world needs what you do.

To us, the GO means
Do what you love.

This guide show you how to bring our most important brand trademarks to life.

To protect GoDaddy's brand trademarks, we require consistency of use and adherence to this guide's rules. Any usage outside of these rules is strictly prohibited. Sorry, no exceptions.

There's more to our brand than just our trademarked assets. For our complete style guide, visit the GoDaddy Asset Manager at gddam.godaddy.com.
